CATTLE WILL NOT NECESSARILY SELL IN CATTLE-LOG ORDER

Terms & Conditions of This Sale

1. **BIDDING:** Each animal will be sold to the highest bidder without reserve and ownership will change when the animal is sold. The auctioneer will settle any disputes as to bids and may, at his discretion, declare all bids off and resell the animal or animals in question.

2. **TERMS:** Terms of this sale are Cash (U. S. Funds) in all cases.

3. **HANDLING:** All animals will become the responsibility of the purchaser from time declared sold in the ring. Animals will be cared for free of charge until the following day. Arrangements for a longer period must be made by contact between purchaser and yard management. **NO CATTLE LOADED DURING SALE!**

4. **HEALTH:** These cattle are free from any infectious or contagious disease. Health papers will be provided in order to allow shipment anywhere in the Continental United States. Out of State permits already applied for.

5. **ALL SALES FINAL.** As this is a complete dispersion of registered cattle, all cattle will be sold without further guarantee. **HOWEVER,** all cattle have been examined by a licensed veterinarian and all findings will be announced.

6. BREEDING STATUS GLOSSARY:

SAFE IN CALF: Female has been palpated and diagnosed pregnant by a licensed veterinarian.

BRED: Female has been served by a bull or artificially inseminated to a bull but does not mean this female is safe in calf to that service.

PASTURE BRED OR PASTURE EXPOSED: Female has been running in the pasture with the bull and has been exposed to the bull for the period of time as stated but does not necessarily mean that this female is safe in calf.

OPEN: This is (a) a virgin heifer that has never been exposed to a bull by any means; (b) in the case of a cow, she has not been exposed to a bull by any means since the birth of her last calf; (c) a female of any age palpated by a veterinarian and found not to have conceived.

PREGNANCY GUARANTEE: All females are guaranteed as represented (safe in calf or open) in the catalog or on the supplement. **BUYER** has the option to have these females re-examined by a licensed veterinarian prior to said cattle being removed from the sale facility. In the event said cattle are diagnosed to have different pregnancy status than represented, **SELLER** will pay for examination and make a **FULL** refund of price paid at said sale. If said females are as represented, **BUYER** will pay Veterinarian. **ONCE BUYER** or his representative takes possession of said cattle, there are no further guarantees that said females will eventually calve to the service of the service sire at time of sale.

7. **ANNOUNCEMENTS:** As this catalog must go to press a considerable time ahead of the sale, there will be announcements made relative to breeding dates, new calves, etc. **ANY** and **ALL ANNOUNCEMENTS** made from the auction block or from the ring, relative to the animal or animals selling, take precedence over the printed information in this catalog or sale supplements.

8. **BUYER'S RESPONSIBILITY:** Prospective buyers or bidders at the sale should listen carefully to all announcements made from the auction block by the Auctioneers, Sale Manager or Seller, on each animal that is sold since it is clearly stated elsewhere in the Terms and Conditions of this Sale that announcements from the auction block take precedence over the printed matter in this Sale Catalog. Buyers should also acquaint themselves with the Breeding Status Glossary defined herein. By doing so, a buyer can save himself many problems and it will enable him to be a more competent and qualified buyer.

9. **REGISTRATION CERTIFICATES:** All cattle will be registered in the American Shorthorn Association and proper certificates will be furnished. Transfer of ownership will be completed by the seller.

10. **LIABILITIES:** Wm. F. (Bill) Lefty, dba/Far West Auction Company, Ken Holloway, dba/American Cattle Services, Don Cagwin, dba/Cagwin Cattle Services, hereinafter referred to as **MEDIUM**, are acting as a medium only between the buyer and the seller. Medium is not liable in any way whatsoever for any representations made by the seller. Medium is not in any way liable for any failure on the part of the buyer and/or seller to live up to his/their obligations. The buyer must look to the seller for fulfilling of all representations made hereunder. All persons who attend any portion of this event do so of their own responsibility and risk. The **SELLER, FAR WEST AUCTION, AMERICAN CATTLE SERVICES, CAGWIN CATTLE SERVICES,** their principals, officers, managers, employees, assistants, auctioneers, are without liability of any nature, legal or otherwise.

Information About This Sale

AUCTION SALE LOCATION: At the SMIP RANCH, Woodside, California. From the North take Highway 101 or 280 to Highway 92 West (to Half Moon Bay), West to Skyline Blvd., (Highway 35), South (approximately 10 miles) to paved BEAR GULCH ROAD WEST, (watch for auction signs). From the South take Highway 101 or 280 to Highway 84 (Woodside-La Honda Road), West to Skyline Blvd. (Highway 35), North 3 miles to BEAR GULCH ROAD WEST, (watch for auction signs).

SALE HEADQUARTERS: Villa Hotel, 4000 South El Camino Real, San Mateo, California 94403 (415) 341-0966.

LIVESTOCK TRANSPORTATION: We suggest you inquire about trucking to your destination prior to coming to the sale. Truckers believed to be reliable will be available to assist purchasers in making arrangements for shipping cattle.

SMIP RANCH

Dear Cattlemen:

IT IS WITH VERY MIXED EMOTIONS that I welcome you to this dispersal sale at our California ranch. For personal reasons, I find it necessary to terminate our entire ranch operation here in California and to continue with our Shorthorn breeding program only at our Olds, Alberta ranch.

SINCE CANADIAN REGULATIONS PRECLUDE ANY IMPORTATION of cattle from our part of California, we must disperse our entire California unit.

THIS IS PARTICULARLY SAD because over the last eight years, we have built up and selected not only an outstanding cow herd but our breeding program with our great herd sire, KINNABER MR THIEMAN, has produced really notable results. Thus, in 1975 our showstring, consisting of seven sons and daughters of "Mr. T", won most of their classes as well as many championships on the western showstring. Mr. T's breeding will be obvious in many of the offerings at our dispersal.

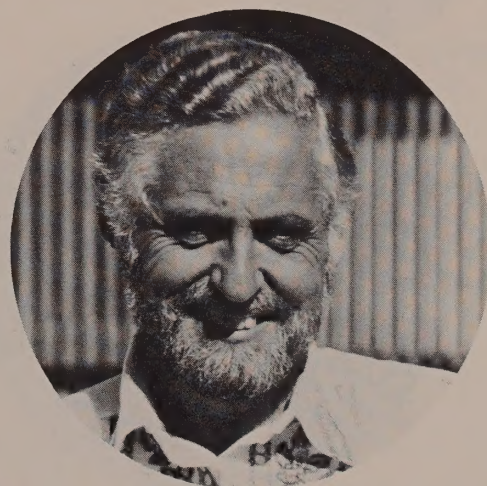

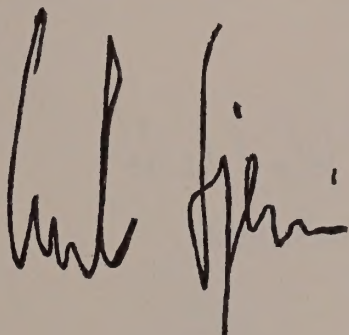

UNFORTUNATELY we lost this great herd sire early in 1976 and only his progeny and some of the semen that we still have left will be here to perpetuate his blood line. In addition to purebred breeders, commercial cattlemen also ought to be interested in his progeny based on his outstanding performance at the 1973-74 American Shorthorn Association Sire Evaluation Test where he exceeded seven of the top American Shorthorn bulls in most categories.

THE FEMALES AT OUR CALIFORNIA RANCH came from some of the most respected herds in North America and I hope that they will form the nucleus of several new Shorthorn herds since this is an unexcelled opportunity of starting with outstanding cattle.

DARROLL WEDDELL IS LARGELY RESPONSIBLE for the improvement made in our breeding program. He is an extraordinarily hard working individual with a total commitment to his job. His input is reflected in our complete program. Darroll's devotion to his family and his community is to be highly commended. I want to take this opportunity to thank the entire Weddell family, Jeanette and the four girls, for their efforts and support to the SMIP program over the years.

THIS SALE INCLUDES OUR ENTIRE 1975 winning showstring. While this is a farewell from our California ranch, I hope that we will be able to welcome many of you in the future at our Canadian ranch.

Carl Djerassi

SMIP RANCH

Fellow Cattlemen:

It is with great sadness to me that Dr. Djerassi must disperse this great herd of Shorthorns. I have been Manager of SMIP Ranch since its inception in 1968. We bought our first females, 10 heifers, from Don Cardy, and a bull from Thiemans, T P S Coronet Cavalier 3rd. We also purchased 30 heifers from Valley View and Rocker Bros. and at the same time we purchased the bull from Thiemans. The following year we purchased 30 more heifers from Rocker Bros. and 6 heifers from Way-Co and picked another bull from Thieman, Coronet Keystone 19th.

In February of 1972 we purchased the complete herd of W. R. Owen, Poulsbo, Washington, which included many cows from the Bennett dispersion. We were anxious to acquire Bennett blood for out-crossing.

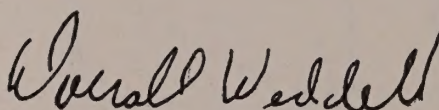

While looking for cows for our Canadian ranch, Sherman Berg and I stopped at Dr. Nold's ranch in South Dakota and he showed me Mr Thieman. I was very impressed with his size and scale and overall correctness. We were really impressed with his feet and legs as we run our cattle in steep, rough country and the industry demands sound feet and legs. In the same year we purchased the full Bennett herd from Bill Bennett, Connell, Washington. The spring calving cows went to the Canadian ranch and the fall cows to the California ranch. This purchased was a very important one in the use of "T's" and Bennett blood for a direct out-cross. It really worked — all our show string was made up of this cross and we have a tremendous bunch of replacement heifers ready to go into the herd.

In 1974 we purchased B B Royal Oak 105 from Jack Delaba, Camas Valley, Oregon, with the idea of using him on "T's" daughters. Two of his sons were the first and second highest selling bulls at our 1974 production sale. About half of the calves in our dispersion are by him. He is a 100% dehorner.

In November of 1975 we brought SCARCLIFFE AMBASSADOR down from Canada to add body length and trimness to the herd. It was at this time that Dr. Djerassi decided to disperse the herd. We first thought to ship all the cows to Canada but health regulations to get into Canada could not be met, so we will disperse this great herd to the cattlemen of the U. S. A., hoping they realize they are being offered the results of a great breeding program and a lot of time, effort and love put into these cows. I don't believe there is a greater set of cows demonstrating size, scale and mothering ability.

It is with a saddened heart I must say farewell to these cows, calves, bulls and the ranch. They have enriched my family and my life in a way which words can't describe.

Sincerely,

DARROLL WEDDELL

Dear Shorthorn Breeders:

We would like to take this opportunity to welcome you to the SMIP RANCH DISPERSION. It is never a happy occasion to see a great herd of Shorthorns dispersed. However, it is an opportunity for Shorthorn breeders throughout North American to add some of the very best to their breeding herds.

We hope that you will not let miles stop you from adding these great foundation females to your herd. With the SMIP Ranch delivery offer, that you can read in this catalog, it should not cost you any more than purchasing an animal a couple hundred miles from home.

It is also an ideal opportunity to vacation in one of the great areas of the world, the San Francisco Bay area. We would like for you to contact our office and we will be glad to make complete travel arrangements for you, as well as seeing that your cattle are shipped following the sale.

Looking forward to seeing you June 18 and 19.

Sincerely,

CAGWIN CATTLE SERVICES, INC.

Fellow Cattlemen:

It is always regretful to see a great herd of cattle dispersed, especially one so strong in genetically superior seedstock as the SMIP Ranch. However, such dispersions offer others the opportunity to take advantage of the countless efforts made by such cattlemen as Dr. Carl Djerassi.

Plan to be in Woodside, California and share in this great herd of Shorthorn and Polled Shorthorn cattle. Only in such a dispersion do you get the opportunity to bid on the great ones.

See you June 19 or give us a call if we can represent you.

Sincerely,

Ken

"MR T" was enrolled in the American Shorthorn Association's 1973-1974 SIRE EVALUATION PROGRAM (the results are printed on this page). In addition to being above average for all economic traits, "MR T" had the LOWEST AVERAGE FAT THICKNESS and the HIGHEST POUNDS OF TRIMMED RETAIL CUTS per day of age.

"MR T" Sired a bull that ranked 4th, gaining 4.19 POUNDS PER DAY, against 220 bulls of all breeds including exotics in the 1973 MANITOBA BEEF CATTLE INDEXING CENTER. In 1974 "MR T" sired the top selling bull over all breeds in the Manitoba test sale.

"MR T" SONS and DAUGHTERS have been among top selling cattle across North America, including the Kansas City Polled Shorthorn Congress.

Mr. Bill Lefty
Far West Auction Company
Lincoln, California

Dear Bill:

It makes a fellow feel pretty sad to see such a good group of cows as these at Smips have to be dispersed. Through my family we have been connected with Registered Shorthorns for over 51 years. It is a great loss to the Shorthorn Fraternity to lose a herd of such prominence, but it is a great opportunity for anyone wanting to either get into the breed or to add top cows to their herd.

Boa Kae Royal Oak

When Smip bought our herd they got one of the great sets of young females I have ever had the pleasure to work with. The daughters of Boa Kae Royal Oak, out of the good old Bennett cows are something to behold. They have excellent udders, are tall, clean and trim. They have good calves and are excellent milkers.

No one in the Shorthorn business needs an introduction to the Royal Oak line of cattle from Wises' in Canada. We purchased Oak from Goef Fretwell, where he sired some of the biggest, best cows I have ever seen. I attended a dispersion at Ft. McCloud, Hansens, where a bunch of his daughters sold and they were as good a group of cows to be seen anywhere. A son of Oak selling in this sale, BB Royal Oak 105, is an excellent individual. His actual weaning weight was 660 lbs., and his 365 day weight was 1040, he is over a ton bull now and has sired some really top calves.

Scarcliffe Ambassador

When I was at Fretwells again later, I saw one of the cleanest, tallest Shorthorn calves to be seen. That calf, one of the herd sires selling, is Scarcliffe Ambassador. He hasn't changed — he is tall, long and very clean. He is sired by the great old Australian bull, Mandalong Royal Ambassador, that sired so many top cattle in Australia and Canada.

I don't know of a greater opportunity for Poll-ed Shorthorn people to purchased the very tops in seed stock than there is in this dispersion.

Again I say it is too bad the herd does not stay together, but it is a great chance for everyone to add to or improve their own herds.

Sincerely,

Bill

Shorthorn Breeders and Commercial Cattlemen:

ENTHUSIASM IS CONTAGIOUS! and the enthusiasm of Shorthorn Breeders all over North American has not only improved, but it is beginning to be reflected in increased registrations and higher values established on cattle sold in the better sales.

A GROUP OF SHORTHORN BREEDERS from another area told me, during an informal discussion, of the plans to be more aggressive in promoting the breed as well as encouraging the development of bigger, growthier cattle.

SOMETIMES PUREBRED BREEDERS FORGET that beef cattle improvement takes time. The seemingly rapid advancement some exotic cattle multipliers were making was discouraging to many British breed people. They couldn't understand how someone involved in ownership of some cattle for such a short period of time could be grossing so many dollars, while they themselves had worked years to build their breeding programs and were not making such spectacular sales. WELL, some of those breeds and some of those breeders are going to be around in the future. But many of the breeds and the people that multiplied them are gone. They didn't have a foundation.

THE PROGRESS IN THE SMIP PROGRAM IS PHENOMENAL when one stops to analyze what has happened since the inception of the herd a short eight (8) years ago. In order to get enough numbers to select from and to substantiate a good operation, Carl and Darroll had to buy entire groups of cows (the good, the bad, and the ugly). It has taken time to get the real superior cows identified by record keeping and individual production analysis. The selection of herd sires has been well done in order to identify the bulls that will niche with the select set of cows remaining in the program.

THERE ARE SEVERAL SETS OF HALF SISTERS in this herd now. Most noticeable are the daughters of Kinnaber Mr Thiemann x.

HERE IS THE SOUND MATERNAL FOUNDATION TO BUILD THE VITAL COW FAMILIES NECESSARY FOR THE FUTURE!

YOU DON'T NEED A NEW BREED — YOU NEED NEW BLOOD! You will recall that the American Shorthorn Association used this slogan during the onslaught of the exotics. There are several outcross opportunities in the cow herd. For those of you needing an outcross bull, the young Austalian pedigreed SCARCLIFFE AMBASSADOR x will help many established breeders. AMBASADOR will help you to build a commercial bull trade as well. Cowboys will like the large framed, long bodied, clean fronted, solid colored bull.

DARROLL WEDDELL has done a solid job in developing these cattle. He has managed the cattle to fit the environmental conditions. He has improved the ranch and the feed in a practical manner to facilitate the improvement of the cattle. WAIT UNTIL YOU SEE the calves on these cows!

THE SHORTHORN RANGE BULL MARKET has always been the best here in the West compared to all North America. HOWEVER, the cattlemen are very selective. At the 10th ANNUAL WESTERN STOCKMAN'S ALL BREED BULL SALE, Famoso, California, the better Shorthorn bulls met with aggressive demand in spite of current conditions. But again, as was the case at the Cow Palace, Red Bluff and at Klamath Falls, there was a real spread between the top bulls and lower grading bulls. In fact, based on group averages, there was a \$495.00 difference between them.

DON CAGWIN of Cagwin Cattle Services and KEN HOLLOWAY of American Cattle Services have cooperated with us on this Sale. Personally, I think that they are two of the best young cattlemen in North America. They both work with several breeds and have kept an objective viewpoint in the selection of breeding cattle. They realize that there are some basics that are necessary for sound, useful cattle. In addition, both of these men have a real background in Shorthorns, as they served your breed association as field representatives. Don't hesitate to call on any or all of us if we can help you in any way.

I WANT TO PUBLICLY EXPRESS MY APPRECIATION to Carl Djerassi and Darroll Weddell for the confidence that they have bestowed upon me and my organization in allowing us to handle all the details in managing and conducting their dispersion.

If I can answer any questions about the cattle or equipment selling in this significant event or assist with any reservations for accommodations or your transportation to the sale, call me. My phone numbers are in the information section of this cattle-log.

PLEASE! Study these pedigrees, review the SMIP Program, come early to see these cattle, so that you can Buy Knowledgeably!

Sincerely,

Bill

Wm. F. (Bill) Lefty
